

we listen to K-LOVE radio in Omaha and wherever we can when we travel. We appreciate being able to hear the same broadcast wherever we are. K-LOVE's value is evident based on their national listener-ship. In addition to quality music which is not available on any other local station, they also serve my community by announcing local events, praying for my needs, and reaching out to people who need a listening ear. Please do not make a decision that interrupts K-LOVE throughout the country. Thanks.
